

A Note from Passport Visa Advisors:

While we navigate these uncertain times Passport Visa Advisors is temporarily shifting from physically submitting US passports for our clients to a consultative/preparatory role for our clients. While waiting for the US Passport Agency to re-open PVA will continue to provide passport consultative services, our popular Kits and/or passport photos.

Keep in mind the only two passport services currently available are standard 6-8 weeks processing services and emergency "life or death" passport services from the Passport Agency themselves. PVA can help prepare all international IP for these two options.

Thank you for letting Passport Visa Advisors serve your US passport needs.

Kit 2 - PVA will prepare all passport documents and FedEx to the IPs "sign here" tabs and with full instructions on where to sign and steps required thereafter will be provided. Access to a printer is not required.
